

CCP MODULE 03

Cloud Technology Lab

This course module presents participants with a series of exercises and problems designed to test their ability to apply their knowledge of topics covered previously in course modules 1 and 2. Completing this lab will help highlight areas that require further attention, and will further prove hands-on proficiency in cloud computing concepts, technologies, and practices as they are applied and combined to solve real-world problems.

As a hands-on lab, this course provides a set of detailed exercises. Both individual and group exercises are provided that require participants to solve a number of interrelated problems, with the ultimate goal of assessing, measuring and planning for the deployment of cloud-based IT resources, and establishing cloud computing technology architectures based on Software-as-a Service (SaaS), Platform-as-a-Service (PaaS) and Infrastructure-as-a-Service (IaaS) delivery models.

For instructor-led delivery of this lab course, the Certified Cloud Trainer works closely with participants to ensure that all exercises are carried out completely and accurately. Attendees can voluntarily have exercises reviewed and graded as part of the class completion.

For individual completion of this course as part of the Module 3 Study Kit, a number of supplements are provided to help participants carry out exercises with guidance and numerous resource references.

Duration: 1 Day

Arcitura®
CERTIFIED
Cloud Technology
Professional

CERTIFICATION

This course is part of an accreditation curriculum through which one or more official certifications can be achieved.

EXAM C90.03

Exams are generally available at Pearson VUE testing centers worldwide, via Pearson VUE online proctoring and on-site delivery as part of private workshops.

STUDY KIT CONTENTS

This course is available as part of an Arcitura Study Kit that includes the contents listed below. In addition to the base course materials used during training workshops, additional materials designed for self-study purposes are also included.

- Lab Exercises Booklet
- Self-Study Guide
- Mind Map Poster
- Flashcards
- Audio Tutor Recordings (usb)
